

Dear Food and Drug Commissioner,

I am an eleventh grade student at Eldorado High School in Albuquerque, New Mexico. My English class has just finished the book "The Jungle" by Upton Sinclair which was about the meat packing industry in the 1920s. As a result of the book the Pure Food and Drug Act of 1904 was passed, it was brought to my attention that the downer cows are still being sent through the packing chains, as a result, I support the Downed Animal Protection Act (Docket # 98P-0151/CPI). I would appreciate your support also of this important act.

Sincerely,
Nichole Nunn
